Create new subgroup

Groups are the best way to manage multiple projects and members.

Create new project

Projects are where you can store your code, access issues, wiki, and other features of Gitlab.

## Create new project

### Create blank project

Create a blank project to store your files, plan your work, and collaborate on code, among other things.

### Create from template

Create a project pre-populated with the necessary files to get you started quickly.

### Import project

Migrate your data from an external source like GitHub, Bitbucket, or another instance of GitLab.

You can also create a project from the command line. [Show command](#)

과제 받기위해 web homework 라고 짓도록 하겠다.

New project > Create blank project

Project name

web homework

Project URL

https://lab.ssafy.com/ s09/c06

Project slug

Want to organize several dependent projects under the same namespace? [Create a group.](#)

Visibility Level [?](#)

☒ Private

Project access must be granted explicitly to each user. If this project is part of a group, access is granted to members of the group.

Project Configuration

☒ Initialize repository with a README

Allows you to immediately clone this project's repository. Skip this if you plan to push up an existing repository.

☐ Enable Static Application Security Testing (SAST)

Analyze your source code for known security vulnerabilities. [Learn more.](#)

과제 제출용 URL 접속하면 다음과 같은 화면

The screenshot shows the GitLab interface for a repository named 'web homework'. The left sidebar contains a navigation menu with options like Project information, Repository, Issues, Merge requests, CI/CD, Security & Compliance, Deployments, Packages and registries, Infrastructure, Monitor, Analytics, Wiki, and Snippets. The main content area displays the repository details, including the project name, ID, and statistics (1 Commit, 1 Branch, 0 Tags, 61 KB Project Storage). Below this, there's a section for the initial commit, showing the commit hash 2101b65a and the author '이자룡' who authored it 4 minutes ago. A table lists the files in the repository, with the first entry being 'README.md' which was added in the initial commit. Below the table, the content of the README.md file is displayed, starting with the title 'web homework' and a section 'Getting started'.
